Virginia Rabello

Full Stack Web Developer

Passionate about technology I decided to take a new path as a Web Developer. I'm currently searching for internship or entry level opportunities as Full Stack, Frontend or Backend Web Developer. Although, I'm open for other correlated roles. I'm a very committed person regarding to deadlines and to communication with my team and stakeholders. I've always tried to implement my codes using the best practices concerning to performance, accessibility and maintainability.
